ADRIANA SMOCK

SENIOR DATA ANALYST | POWER BI | SQL | BUSINESS INTELLIGENCE

adrianasmock@gmail.com

Eagle Mountain, UT

PROFESSIONAL SUMMARY

Analytics professional with experience using Power BI, SQL, and Snowflake to turn business data into reporting for sales, finance, supply chain, and leadership. Skilled in data modeling, DAX, forecasting, KPI development, and variance analysis. Combines CPG and manufacturing experience with cross-functional business partnership to improve planning and operational decisions.

CORE SKILLS

Power BI | DAX | Power Query | SQL | Snowflake | Excel | Data Modeling | KPI Development | Forecasting | Variance Analysis | SPINS | Power Automate | ERP Data | Stakeholder Reporting

PROFESSIONAL EXPERIENCE

Senior Sales & Operations Analyst | Bonafide Provisions | May 2026 - Present

- Build Power BI data models, DAX measures, and executive dashboards integrating sales, forecasts, open orders, and distributor data for consistent performance reporting.
- Create inventory management reports, distribution trackers, and pricing analyses to support inventory planning, distribution visibility, and pricing decisions.
- Partner with Sales, Finance, and Operations leaders to define KPIs, investigate variances, and translate findings into planning decisions.
- Standardize customer and product mappings across systems and maintain forecast history to improve data quality and recurring analysis.
- Automate recurring reporting and alerts with Power BI and Power Automate, saving 8+ hours per week.

Sales & Operations Analyst | Better Butter | Jun 2024 - May 2026

- Used SQL and Snowflake alongside Power BI to retrieve and analyze business data for sales and operations reporting.
- Built Power BI dashboards for Sales, Procurement, Finance, and leadership, including inventory visibility and three-month material planning.
- Analyzed SPINS syndicated and internal sales data to evaluate customer, SKU, promotion, and forecast performance.
- Applied variance and root-cause analysis to support demand planning and customer reviews; maintained accurate customer and sales records in Sage X3 ERP.

Logistics Data Analyst | Global Access | Mar 2022 - Jun 2024

- Analyzed shipping, carrier, cost, and delivery data and built dashboards to monitor logistics KPIs and service performance.
- Identified root causes of undeliverable international shipments and helped reduce them by 20% within one year.
- Partnered with Operations and Customer Service to improve data accuracy, processes, and performance reporting.

Packaging Department Supervisor | CSB Nutrition Corporation | Jul 2019 - Mar 2022

- Led packaging teams of 20-25 employees, up to 40 during peak production, and coordinated schedules with Planning and Inventory.
- Tracked throughput, labor productivity, and quality metrics to improve output and reduce production bottlenecks.

EDUCATION

Master's Degree in Management and Productivity | Universidad APEC

Bachelor of Science in Marketing | Universidad del Caribe

SELECTED TRAINING

- SQL Foundations (Microsoft, 2025) | Data Analysis with R Programming (Google, 2024) | Google Data Analysis with Python (Google, 2026) | Applied Data Science with Python Specialization (Coursera, in progress)
